### **Examiner's Comment**

The previously withdrawn claims 19-20, and 22 are hereby rejoined with the elected claims and have been considered.

### **Reasons for Allowance**

The following is an examiner's statement of reasons for allowance:

The claimed invention is directed to an isolated nucleic acids comprising a CSVMV viral sequence functioning as promoter in a plant cell when operably linked to heterologous nucleic acids. The closest prior art is Calvert et al. (J Gen Virol. May 1995, Vol. 76, pages: 1271-8). Calvert et al. disclose the entire sequence of the viral genome of CsVMV, but do not teach or suggest which part of the genomic sequence would function as a promoter in the virus and/or in a plant cell when operably linked to heterologous nucleic acids.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
